

SR-91 Westbound & Eastbound Lane Widening Project

Eastbound Lakeview Avenue Off-Ramp

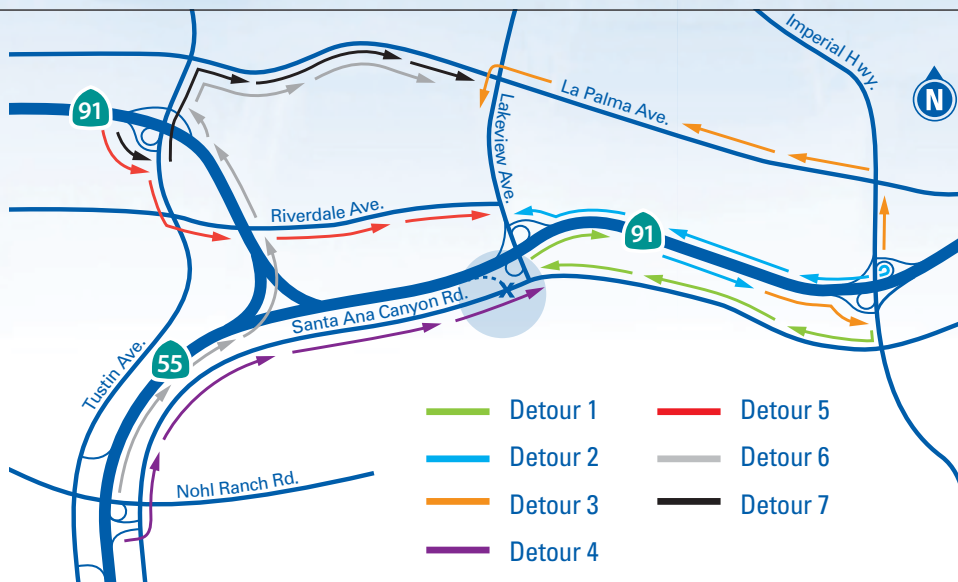

Ramp Re-Opening Rescheduled for April 9

Background: Caltrans and OCTA are constructing the SR-91 Westbound and Eastbound Lane Widening Project. In addition to adding a new, six-mile lane in each direction between SR-55 and SR-241, the project will deliver an additional eastbound exit lane at the Lakeview Avenue, Imperial Highway, and Yorba Linda Boulevard/Weir Canyon Road off-ramps. As part of the project, three bridges will be widened and 15 ramps will be realigned. Project completion is estimated for early 2013.

What: The Eastbound Lakeview Off-Ramp will be temporarily closed so that construction crews can safely and efficiently realign the ramp and accommodate the new lane.

When: The ramp closed Tuesday, February 14. Due to weather conditions, the ramp opening has been rescheduled for April 9, 2012. *(Please note these dates are subject to change due to unforeseen weather or operational issues.)*

Detour Options

Safety Reminder

As a reminder, California law requires vehicles to safely reduce speed, move over and merge into unoccupied lanes when emergency vehicles, construction vehicles, or tow trucks are displaying flashing warning lights. OCTA and Caltrans remind motorists to use extra caution and reduce speeds when driving through construction zones.
